

YOUR DOLLARS = YOUR VOTE

What you buy, where you buy and what businesses you support can help save our democracy – or contribute to its dismantling.

STEP AWAY FROM AMAZON!

We all know Jeff Bezos has given millions of dollars to Trump. When we shop at Amazon and Whole Foods, we are bankrolling Trump.

And did you know that:

- Amazon warehouse workers face unsafe conditions, relentless quotas and little job security.
- Local businesses are struggling to compete against a behemoth that prioritizes profits over community.
- The environment suffers from Amazon's excessive packaging, waste and a carbon footprint that's growing every year.

THE ONE-PRODUCT CHALLENGE

It can feel impossible now to live without Amazon. Would you consider taking one small step in that direction and see how it feels?

Pick one product you purchase from Amazon and vow to purchase it locally, direct from the manufacturer, or through a company that better represents the kind of world you want to live in.
