

# Indivisible Tucson Announcements

## May 26, 2025

Greetings Fellow Indivisibles!

It's been a tough week with the passage of the Oligarch Rescue Bill in the House, but the courts are fighting back and so are we! No Kings Day (June 14) is right around the corner, and we expect it will be a major game-changing event -- so we have that to look forward to!

2. Message and resources from the Pressure Ciscomani team

***The Pressure Ciscomani Team is focused on ITAA holding Ciscomani accountable for his vote.*** The flyers attached (two pdfs) are one way to spread that message. Those of you who live or work in Ciscomani's district, please download and print as many as you wish, and post them up where people can see them. We would like to blanket the area with this message.

[TurnYourBack-horizontal.pdf](#)

We will also be printing and bringing many of these to the in person meeting on Saturday, and discussing how you can help with this effort.

Thank you so much

3. From an email from Indivisible National:

House Republicans just passed their Medicaid-slashing, billionaire-enriching megabill (aka the Republican Tax Scam) in a 215-214 vote. The bill got even worse overnight, and at the end of this email we'll detail some of its most harmful provisions -- but the most important thing to know right now is this:

***This fight isn't over, and this bill can still be stopped! Even now, as Speaker***

***Johnson and his pals prematurely pop their champagne, we have two clear paths to killing this bill:***

1. We can defeat the bill outright in the Senate by pressuring four Senate Republicans into abstaining or voting against it.
2. If the Senate changes even one word of the bill -- and GOP Senators are already pledging major rewrites their House counterparts won't like -- it'll go back to the House for another vote, giving us a second chance to block it there.

**Senators are unmoved by Johnson's 'big, beautiful bill' pitch**

*The speaker cautioned Senate Republicans against making sweeping changes to the House bill.*
